--------	----------	-----------------

Go to the School's library and browse or search for the free tool you want to add. These tools have an **Add icon**, click on this to add the tool to **My Collection**.

The screenshot shows the Skolon Library interface. At the top, there's a navigation bar with 'Demoskolan', 'My collection', 'Library', and 'Teachers' room'. Below this, there's a search bar and a grid of tool categories: News, My school, Biology, Mathematics, Languages, and All subjects. Under the 'All subjects' category, there are three tool cards for 'ABC-klubben FK Extramaterial', 'ABC-klubben åk 1 Extramaterial', and 'ABC-klubben åk 2 Extramaterial'. Each card has an 'Add' button. The 'Add' button on the 'ABC-klubben åk 1 Extramaterial' card is highlighted with a red circle.

A pop up confirms that the tool has been added to My Collection.

The screenshot shows the Skolon Library interface with a confirmation pop-up message. The message is a blue box with a checkmark icon and the text 'The tool has now been added to the selected users' collection'. The pop-up is positioned over the 'ABC-klubben åk 1 Extramaterial' tool card. The rest of the interface is the same as the previous screenshot.
