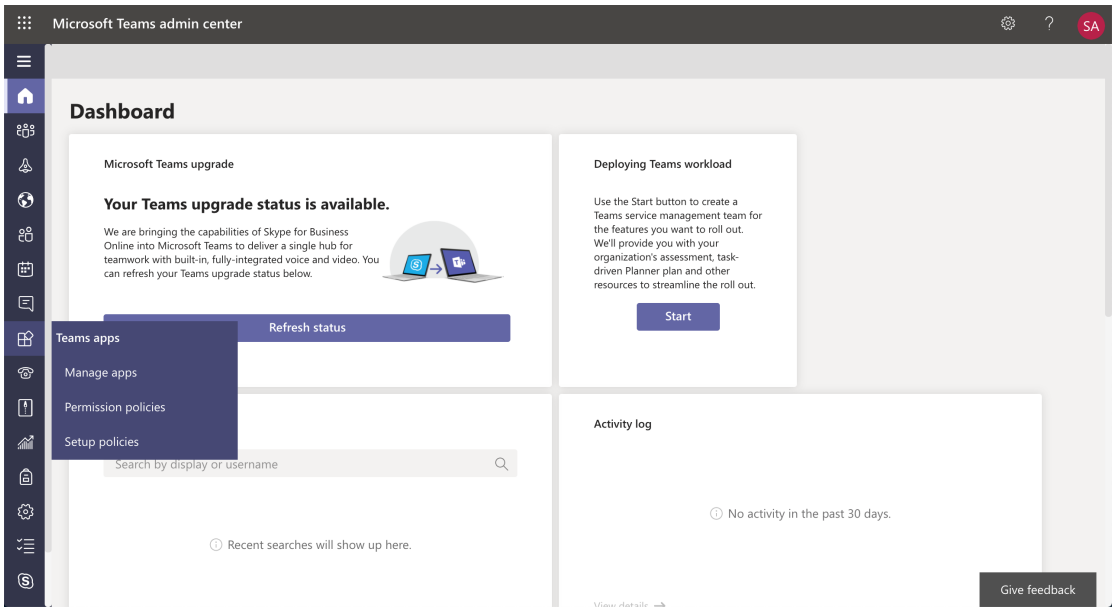
How to add the Skolon Teams app to the menu bar

Clara Hardarsson - 2026-11-28 - Microsoft / Entra

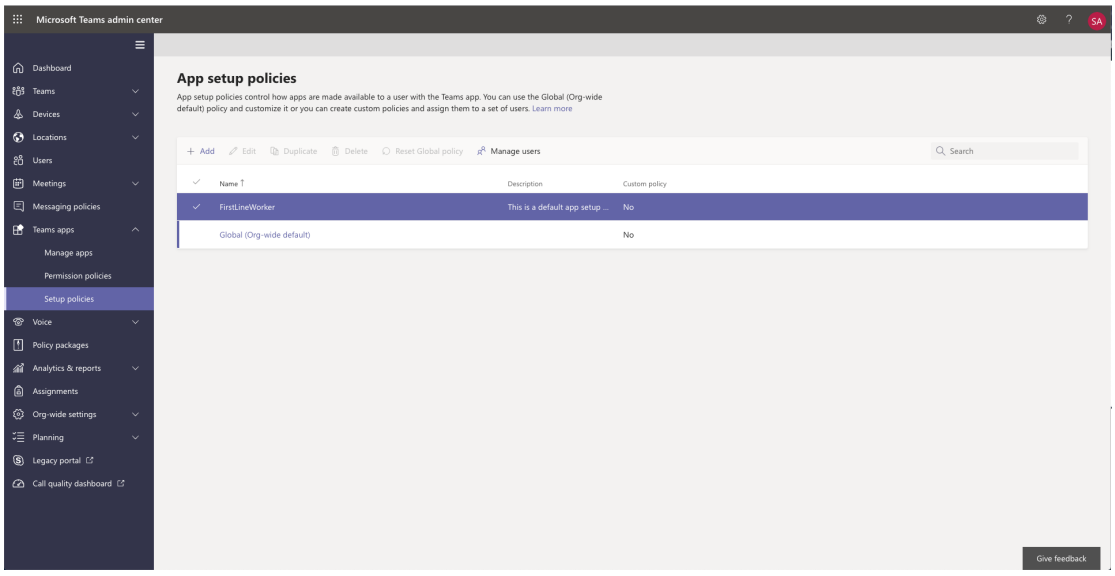
In this article, you will learn how to, as an administrator, add the Skolon Teams app to the Teams menu bar.

Select **Teams apps** in the menu on the left, then click on **Manage apps**.

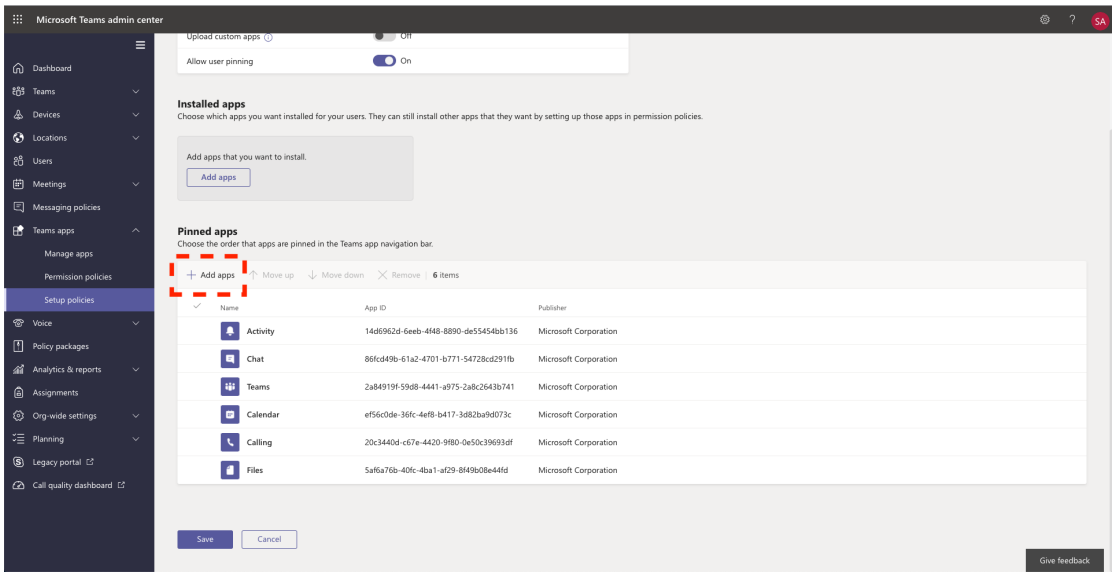


All available apps in Teams will be displayed. Here you can choose to allow or block apps in Microsoft Teams. Search for **Skolon**, after which you can assign the app.

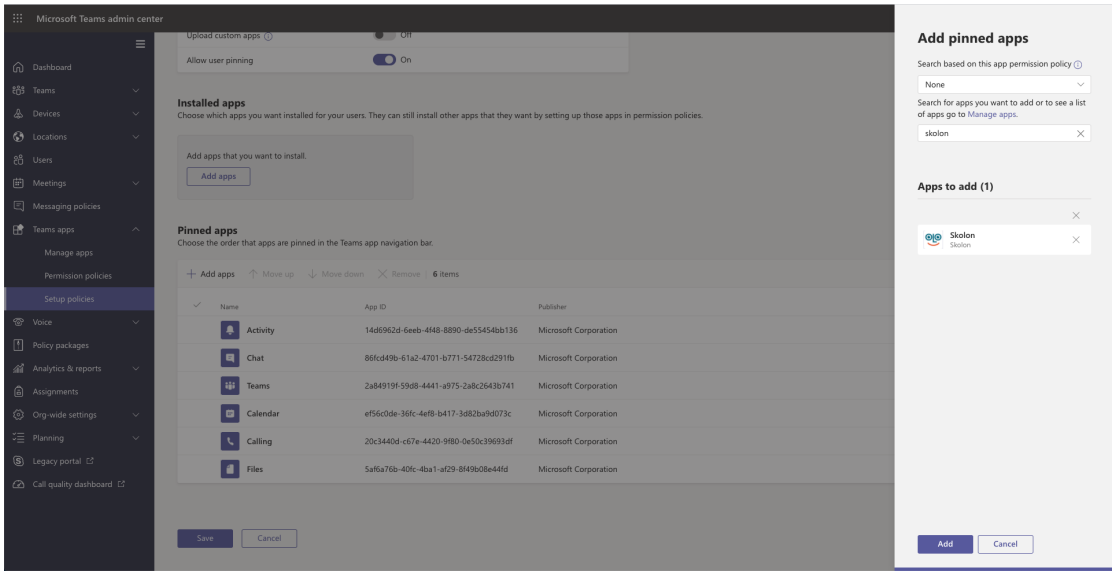
Next, click on **Setup policies** and create a policy for which users at the current school should have the app.



You select the group that should have access and click on **Add apps**.



Policies are installed at the user level.



A script is required to install policies.
