

Add requests for tools in the library

Noah Kapteijn - 2022-11-21 - Library

When you find tools in Skolons **Library** that you want to recommend to your school, you can just easily click the heart symbol to make a request.

You get a confirmation that your request have been saved, and the heart turns red.

You can also easily see a summary of the requests you have made. Click the button **Requests**.
