Deny access for specific tools at an approved supplier

Clara Hardarsson - 2026-06-11 - [Manage data and security](#)

If you use Skolon's **approved suppliers** feature, as an organisation administrator, you can specify if any particular tool should be **blocked from access**.

This means you can choose to approve a supplier even if not all of their tools can be approved, as you can control access at the tool level. Here's how to do it:

- Click **Data Visualisation** in "My apps."
- Click **Data Protection**.
- Search for or scroll to the supplier you intend to edit.
- Click on the relevant supplier.
- **Check the box** next to the tool you want to deny access to. Click **Reject**.

The screenshot displays the 'Data protection' section of the Skolon interface. On the left, a sidebar lists navigation options: 'Shared data', 'Usage', 'Demo use', 'Purchase statistics', and 'Data protection'. The main content area shows a hierarchical tree structure for 'Skolon UK'. At the top, a summary card for 'UPPER SECONDARY SCHOOLS' displays '28' and '30' with a 'Users' button. Below this, a grid of tools is shown, each with a wrench icon indicating its status. The tools are organized into three rows:

- Row 1: One Play, Zoody AB, Skakup, ClickView, Canvas Pty Ltd, WVideo, SIA Helge, Kuba Robotics, Expert software applications..., Dugger - Digital Assessment.
- Row 2: Hammer/Wire AB, Radix AB/ Mattegge..., Creaso, Soundtrng for Education, Walshehol, Inc. DMA Padlet, 2 Simple Ltd, Levalbee, Revidgester AB, Everany Technology AB, Iseerish.
- Row 3: Mead Digital Solutions AB, Ugly Duckling Games, ET Education, Everany Technology AB, Licakers Program Lash..., Tools for Schools Limited, 3D Learning AS, Digisiam, Local tests.

Each tool icon has a small checkbox next to it, which is currently unchecked. A 'Tools' button is visible in the top right corner of the main area. A 'Demo' user profile is shown in the top right corner of the interface.
