SIMS ID

Gabriel Wallén - 2026-11-07 - Sync and user management

Skolon is an integration partner with SIMS and fully supports rostering the platform from SIMS using SIMS ID. You can find Skolon as an application in the your SIMS ID Tile Store.

Once you've added the Skolon app in the SIMS ID Tile Store, our technicians will do the last configuration part and get back to you once it's installed.

Please see SIMS support article on the SIMS ID Tile Store:
