Unable to log in to Skolon

Clara Hardarsson - 2025-07-01 - For teachers

Oops! Have you just tried to log in to Skolon but received an error message?

reasons why we cannot find an account are as follows:

- The user account does not exist in Skolon.
- The email address or other value used for login is not the same between the school's login system and what is registered in Skolon.

How do I resolve this issue?

If you are a student

Contact your teacher or the Skolon administrator at your school and inform them that you are unable to \log in to Skolon.

If you are a teacher or other school staff

Contact a Skolon administrator at your school or an organisation administrator at the local authority/trust and inform them that you are unable to log in to Skolon.

To easily get in touch with your school's administrator, see our guide: Contact your administrator Are you your school's administrator? Read our article <u>Userdata missing from Skolon</u> for possible troubleshooting methods.
