Usage statistics

Clara Hardarsson - 2025-06-27 - Teachers' room

From My Apps, all teachers and administrators have access to the Teacher's room. There, it's possible to get a clear overview of the students, classes and groups that are linked to you as a teacher.

Here, you can also see which tools your students have access to, as well as usage statistics. You can also see which students are currently active and which tools are being used right now.
