Go to the School's library and browse or search for the free tool you want to add. These tools have an **Add icon**, click on this to add the tool to **My Collection**.

The screenshot shows the Skolon Library interface. At the top, there are tabs for 'My collection', 'Library', and 'Teachers' room'. Below the tabs, there is a search bar and a grid of tool cards. The 'ABC-klubben åk 1 Extramaterial' card has an 'Add' button highlighted with a red circle. The card also features a clock icon and the text 'Natur & Kultur' and 'Det här är ett kostnadsfritt digitalt extramaterial.'

A pop up confirms that the tool has been added to My Collection.

The screenshot shows the Skolon Library interface with a confirmation pop-up message. The message is a blue box with a checkmark icon and the text 'The tool has now been added to the selected users' collection'. The background shows the same grid of tool cards as the previous screenshot, with the 'ABC-klubben åk 1 Extramaterial' card still visible.
