## Deny access for specific tools at an approved supplier

Clara Hardarsson - 2026-05-20 - [Manage data and security](#)

If you use Skolon's **approved suppliers** feature, as an organisation administrator, you can specify if any particular tool should be **blocked from access**.

This means you can choose to approve a supplier even if not all of their tools can be approved, as you can control access at the tool level. Here's how to do it:

- Click **Data Visualisation** in "My apps."
- Click **Data Protection**.
- Search for or scroll to the supplier you intend to edit.
- Click on the relevant supplier.
- **Check the box** next to the tool you want to deny access to. Click **Reject**.

The screenshot displays the 'Data protection' section of the Skolon interface. On the left, a sidebar lists navigation options: 'Shared data', 'Usage', 'Demo use', 'Purchase statistics', and 'Data protection'. The main content area shows a hierarchical tree structure for 'Skolon UK'. At the top, a summary card for 'UPPER SECONDARY SCHOOLS' shows '28' approved and '30' pending. Below this, a grid of tools is listed, each with a status icon (a green checkmark for approved or a red 'X' for pending). Tools include One Play, Zoody AB, Skulpt, ClickView, Canvas Pty Ltd, WVideo, SIA Norge, Kuba Robotics, Expert software applications..., Dugger - Digital Assessment, Humark/Fin AB, Radix AB/ Matteggen..., Crea3, Soundtrig for Education, Wavelength, Inc. DMA Padlet, 2 Simple Ltd, Levebee, Revidgenet AB, Everany Technology AB, and Levenish. A bottom row shows additional tools: Mead Digital Solutions AB, Ugly Duckling Games, ET Education, Everany Technology AB, Licakers Program Luhn..., Tools for Schools Limited, 3D Learning AS, Digisam, and Local tests. A 'Tools' button and a 'Users' dropdown are visible at the top right of the main area. A 'Demo member' label is on the bottom right.
