Add free tools

Clara Hardarsson - 2026-02-12 - Skolon Store

In the Skolon Store, there are numerous free digital learning resources and tools that you can use and access.

- Go to the Skolon Store in the main menu.
- Here, you can filter or search for the free tool you want to add. To filter, click the filter button and tick 'Show free tools'.
- All free tools have an 'add' icon. Click the icon to add the tool to My Apps.

As a teacher, you can choose whether you want to add the tool for one or more of your classes and groups, or alternatively individual users.

Tick the class, group or user you want to have access to the tool and click **Add**. A pop-up confirms that the tool has been added to My Apps.
