

## Add free tools

Clara Hardarsson - 2026-02-12 - [Skolon Store](#)

In the Skolon Store, there are numerous free digital learning resources and tools that you can use and access.

- Go to the Skolon Store in the main menu.
- Here, you can filter or search for the free tool you want to add. To filter, click the filter button and tick 'Show free tools'.
- All free tools have an 'add' icon. Click the icon to add the tool to My Apps.

As a teacher, you can choose whether you want to add the tool for one or more of your classes and groups, or alternatively individual users.

Tick the class, group or user you want to have access to the tool and click **Add**. A pop-up confirms that the tool has been added to My Apps.

The screenshot shows the 'My apps' section of the Skolon Store. At the top, there is a search bar with the placeholder 'Searching for tools...'. To the right of the search bar are buttons for 'Contents (37)' and '22 tools'. Below the search bar, there is a message: 'Good morning Demo Admin! Your school is currently bringing together all your digital tools and distributing them, so that the right tools end up with the right staff member and student. So if you're missing a tool, it may appear shortly. Keep a look out!' Below this message, there is a 'Hide' button. To the right of the message, there is a cartoon illustration of two students, one boy and one girl, standing together. Below the message, there are several tool icons arranged in a grid:

- Skolon apps
- WeVideo
- Skolup AI
- Book Creator for ...
- ClickView
- Microsoft Teams
- Canva
- TextAid
- Equatio
- Purple Mash
- Mathplanet
- Microsoft Teams Assignments
- Ask AI with Skolup

At the bottom right of the page, there is a 'Do you need help?' button.
