## Create and assign Skolon Pass

Ulf Kronsell - 2025-06-27 - Skolon Pass

As an administrator you can create and assign Skolon Passes directly from the School admin-tool. This is how it's done. Create and assign the passes, activate them and download the pdf-fil. Print the QR-codes.

**NOTE!** To make it easier to administrate the Skolon Passes when you print them, create and assign the passes one class/group at the time so that you get one pdf-file for each class/group.
