Data visualisation - DPA report

Clara Hardarsson - 2026-06-25 - [Manage data and security](#)

DPA Registration and Report

In this view, as an **organisation administrator**, you can see which suppliers your principal organisation uses tools from. You'll see how many tools are being used from each supplier, along with the number of users who have used those tools.

In the last column, you can indicate whether your principal organisation has signed a **Data Processing Agreement (DPA)** with the supplier in question. Tap on the table row to register if an agreement has been signed.

Skolon's **DPA report** function compiles how many suppliers are in use and how many you haven't yet signed a DPA with.

The screenshot displays the 'Data protection' section of the Skolon interface. It includes a sidebar with navigation options like 'Shared data', 'Usage', 'Demo use', 'Purchase statistics', and 'Data protection'. The main content area shows 'Data protection' settings with three toggle options: 'Allow use from all suppliers in Skolon' (checked), 'Allow use only from your approved suppliers' (unchecked), and 'Show status of DPA in the library' (checked). To the right, a summary box shows: 'All your suppliers' (31), 'Approved suppliers' (5), and 'Number of suppliers with pseudonymised data' (2). Below this is a search bar for suppliers and a table with the following data:

Supplier	Tool	Permissions	Pseudonymisation	Approved	DPA
<input type="checkbox"/> 2 Simple Ltd	Approved (0/0)	8	- Active	- Approved	- Signed
<input type="checkbox"/> 3D Learning AS	Approved (0/0)	9	-	- Approved	- Signed
<input type="checkbox"/> Amazing People Schools Limited	Approved (0/0)	8	-	-	-
<input type="checkbox"/> Canva Pty Ltd	Approved (0/0)	7	-	-	-
<input type="checkbox"/> ClickView	Approved (0/0)	5	-	-	- Signed
<input type="checkbox"/> Creaza	Approved (2/2)	9	-	- Approved	-

Please note that marking an agreement as "signed" within this function is **not legally binding** in any way. The sole purpose of this feature is to allow you, as the principal organisation, to **register which suppliers you have entered into agreements with**.
