Introduction to Skolon Pass

Clara Hardarsson - 2025-06-27 - Skolon Pass

Skolon Pass is a simplified login solution for Skolon in the form of a QR code that is scanned using the camera when logging into Skolon. Skolon Pass is primarily designed for younger students to avoid having to keep track of their login details and to get started in lessons more quickly.

- Skolon Pass can be created by a school administrator. More information can be found in the article "Create and assign Skolon Pass".
- Skolon Pass may or may not be included depending on the municipality's package agreement with Skolon, but where there is the option to purchase it if it is not included in the agreement.
- Skolon Pass can also be used for logging into your Google or Microsoft environment.
- Contact support@skolon.eu if you have any questions.
