Request a Canva for Education Tenant

Gabriel Wallén - 2025-06-30 - Canva for Education

If your school or organization is missing a Canva for Education tenant, you have to apply by filling out this form. After submitting the form, Canva will process your request and you will receive access to your Canva for Education Tenant.

Some of the pages require Skolon-specific information, for these pages please fill in the information as stated below.

SSO-provider

Choose "Other" and write "Skolon as SSO provider and user provisioning" in the text box below.

* SSO provider

> Other ⬍

* SSO other information

> Skolon as SSO provider and user provisioning

Email Address Information

It's important that you create a Canva account prior to submitting the form with the same email address that will serve as the Owner of the Canva for Education tenant. You can create your account at Canva.com

On this page - fill in all the email domains that occur for your users in Skolon. The email domains used in Skolon will have to be verified in Canva in order for you to provision the users to your Canva for Education tenant.

Email Address Information

If you have any questions regarding the submission of this form for the Skolon specific information, please contact the Skolon support, and we'll help you out. For any other questions regarding the form, please see Canva for Education support pages.

Next steps

Once Canva has handled your submission the email address you entered will receive credentials to sign into your Canva for Education Tenant. Once you have access to your tenant, proceed with the installation by following the instructions in this article:

Installing Canva SSO and rostering
