Translation list for pseudonymised user data

Clara Hardarsson - 2025-06-27 - Teachers' room

When pseudonymisation of user data to the provider is activated, teachers can easily see the current pseudonym for a class or group under the Teacher's room.

Note! The pseudonyms are the same across all providers for whom pseudonymisation has been activated.

To see the students' pseudonyms, click on a class or group. The student's pseudonym will be displayed below their real name. Here, you can then access a list of all the students in the class, listed with both their real names and their pseudonyms. Press the icon next to the search field to bring up the list.
