## Try out demo versions of tools

Clara Hardarsson - 2026-02-12 - [Skolon Store](#)

Fancy trying out a digital learning resource in Skolon? Several tools in Skolon Store have demo versions available.

In the Skolon Store overview, you can see which digital learning resources have a demo version available; you can also filter for tools that have a demo version.

- Click on the Skolon Store icon in the main menu. The tools that have a demo version available have a 'Try' button.
- Click 'Try' on the tool you wish to start a demo of.
- Choose whether you want to start the demo for yourself only or for one or more classes/groups. Then click 'Start Demo'.

Once you've chosen to start the demo version, you'll find the tool in your My Apps, just like your other tools.

The screenshot shows the Skolon Store interface. At the top, there are navigation links: 'Lower Secondary School' (dropdown), 'My apps' (selected), 'Skolon app store', 'Teachers' room', and 'Demo' (dropdown). Below this is a search bar with the placeholder 'Searching for tools...'. The main area is titled 'My apps' and shows a grid of tool icons. A message 'Hello Demo Admin' is displayed, stating: 'Your school is currently bringing together all your digital tools and distributing them, so that the right tools end up with the right staff member and student. So if you're missing a tool, it may appear shortly. Keep a look out!' Below the message, there are several tool icons: Skolon apps, AlphaDrop, WeVideo, Skolup AI, Book Creator for ..., Microsoft Teams, ClickView, Canva for Education, TextAid, Equatio, Purple Mash, Microsoft Teams Assignments, and Ask AI with Skolup. A 'Contents (36)' link is visible at the top right, and a 'Sign in' link with 'Trouble logging in?' text is on the right. A 'Do you need help?' button is located on the far right.
