How to add the Skolon Teams app to the menu bar

Clara Hardarsson - 2025-08-23 - Integrations

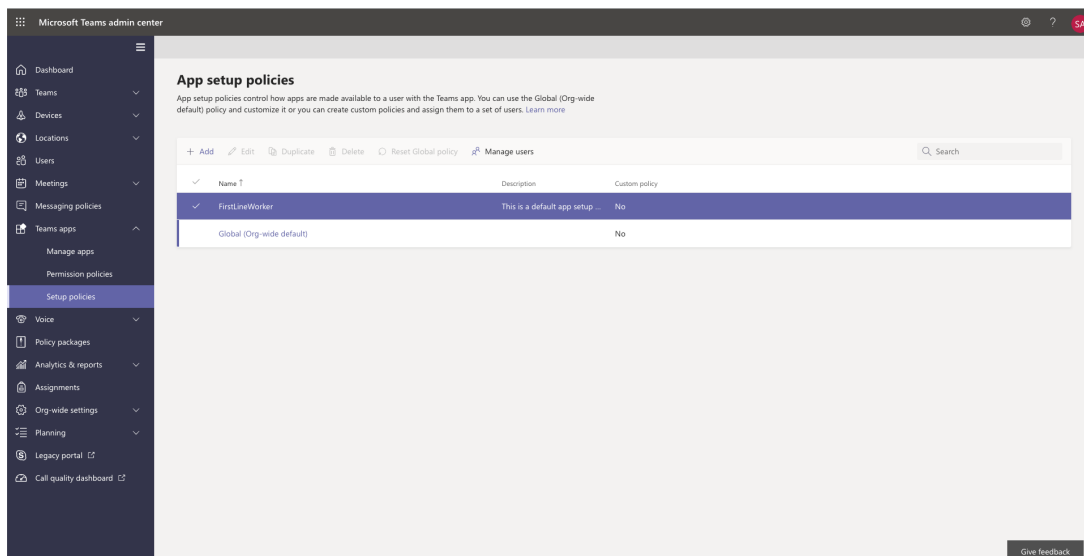

In this article, you will learn how to, as an administrator, add the Skolon Teams app to the Teams menu bar.

Select **Teams apps** in the menu on the left, then click on **Manage apps**.

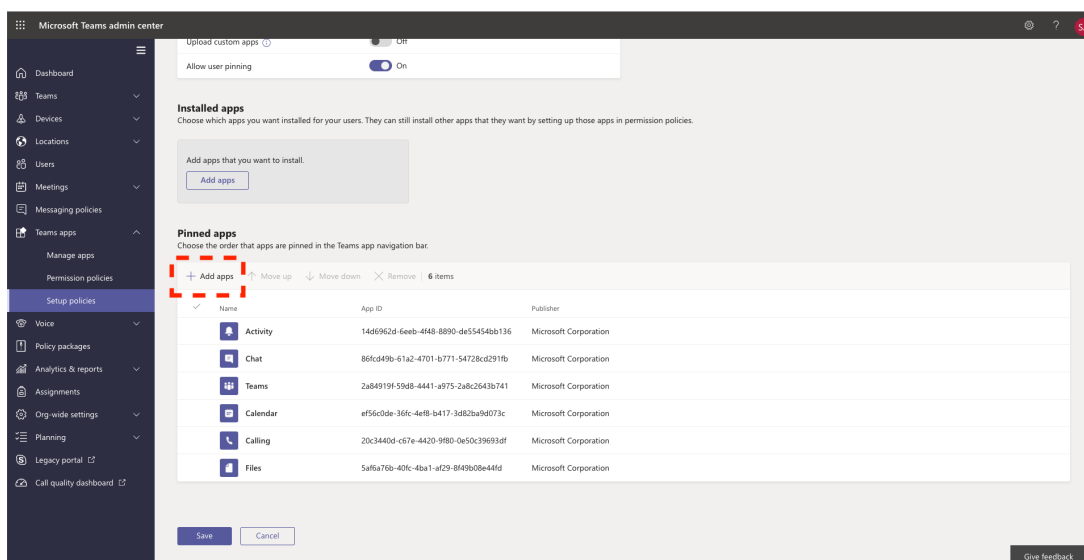

All available apps in Teams will be displayed. Here you can choose to allow or block apps in Microsoft Teams. Search for **Skolon**, after which you can assign the app.

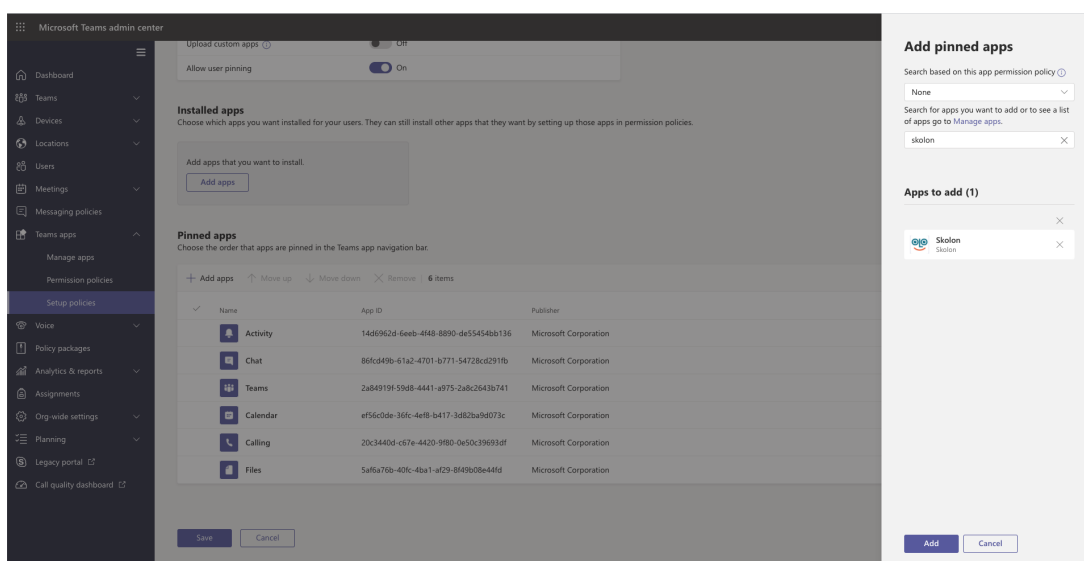

Next, click on **Setup policies** and create a policy for which users at the current school should have the app.

You select the group that should have access and click on **Add apps**.

Policies are installed at the user level.

A script is required to install policies.
