

Share tools from My Apps

Clara Hardarsson - 2025-06-27 - [My Apps](#)

Sharing tools and links with other users is a smart feature in Skolon that you can do directly from My Apps.

It's important to remember that this function is not the same as assigning a license to someone, but is merely a reference to the tool. The person you share with must therefore have their own license for the tool.

Here's how you do it:

1. Log in to Skolon. You will land directly in your personal My Apps. Right-click on the tool you wish to share with someone else. A new menu will appear, click on 'Share'.
2. Here you can choose how you want to share the tool:
 - Copy to clipboard: A link is automatically copied that you can then paste into, for example, an email or document.
 - Send to user: Send the tool directly to another user in Skolon.
 - Share to Classroom: If your school has a connection to Google Classroom, you can share the tool directly from My Apps to Classroom. The button will be visible if the connection has been activated by the school's Skolon administrator.
 - Share to Teams: If your school has a connection to Microsoft Teams, you can share the tool directly from My Apps to Teams. The button will be visible if the connection has been activated by the school's Skolon administrator.

The screenshot shows the 'My apps' section of the Skolon platform. At the top, there are navigation links: 'Upper Secondary School', 'My apps' (which is underlined), 'Skolon app store', and 'Teachers' room'. On the right, there are icons for 'Demo' and 'Help'.

The main area is titled 'My apps' and features a search bar 'Searching for tools...'. Below the search bar is a grid of tool icons, each with a small preview image and the tool's name. The tools listed include:

- Skolon apps
- Skolup AI
- Canva for Educa...
- WeVideo
- Book Creator for...
- Google Classroom
- Homework for the 7th of february
- Exercise 6A
- Soundtrap for Education
- ClickView
- Equatio
- W3Schools Basic
- Mathplanet
- Google Classroom
- Digilearn
- Creaza Core
- GROW PLANET
- ActivityAngel
- Mindomo
- Ask AI with Skolup

On the right side of the grid, there is a sidebar with the heading 'Contents (33)'. It lists three items:

- Google Classroom
- Homework for the 7th of february
- Exercise 6A

Below the sidebar, there is a message: 'Hello there, Chat with our chatbot to ask questions, get help, and find the answers you need.' At the bottom right, there is a 'Powered by Help' logo.
