

Start a licence request

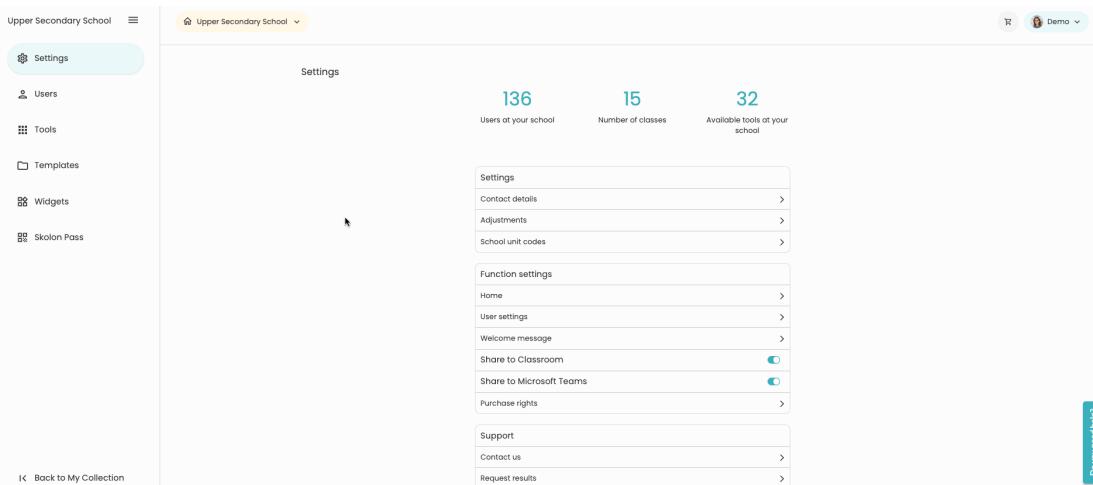

Clara Hardarsson - 2025-07-08 - [Manage tools](#)

The purpose of a licence request is to inform content providers that you wish to access and use their tools via Skolon.

Organisation and school administrators can send out a request for the distribution of licences for the schools in your organisation.

To begin a licence request, do the following:

- Go to the School Admin tool from My Apps
- Click on "Tools" in the menu on the left
- Click on "Licence Requests" in the upper menu. Here you will get a list of the licence requests you have already made and whether they have been answered or not.
- Press "New Request".
Here you can browse the list or search for the provider you intend to send the request to.

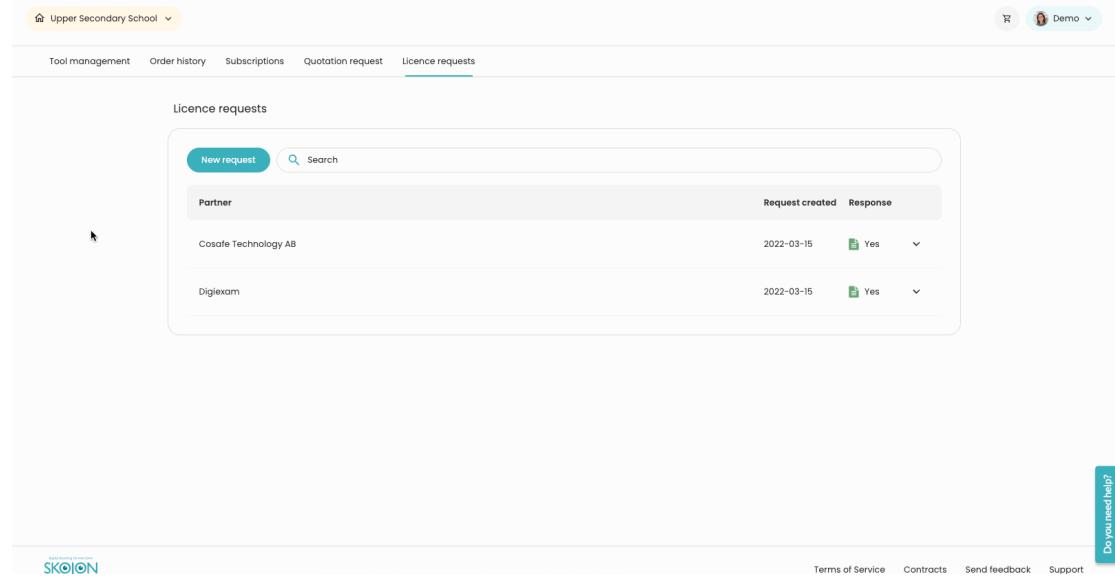

If you are a **school administrator**, the school you are making the request from will be displayed.

If you are an **organisation administrator**, you need to choose whether the request applies to all schools in your organisation or individual schools.

NOTE! It is important that you enter a date for the desired availability of the licences if you want a delayed delivery.

- Then fill in your contact details so that the provider can reach you for a closer dialogue regarding your licences.
- When you are done, press "Send".

The screenshot shows the Skolon platform's 'Licence requests' section. At the top, there are navigation links: 'Tool management', 'Order history', 'Subscriptions', 'Quotation request', and 'Licence requests'. The 'Licence requests' link is underlined, indicating it is the active section. Below this, a sub-header 'Licence requests' is followed by a table. The table has columns for 'Partner', 'Request created', and 'Response'. The first row shows 'Cosafe Technology AB' with a creation date of '2022-03-15' and a response of 'Yes'. The second row shows 'Digilexam' with a creation date of '2022-03-15' and a response of 'Yes'. A 'New request' button is located at the top left of the table area. A search bar is also present. At the bottom of the page, there are links for 'Terms of Service', 'Contracts', 'Send feedback', and 'Support'. A vertical 'Do you need help?' sidebar is on the right.

When a licence request has been answered, you can see it in the interface, along with contact details for the relevant content provider.

The licences are then added to Skolon and assigned by an administrator.

Please see our guide [Manage Licences](#) for more detailed instructions on how to do this.
