Suggest tools for the Skolon App Store

Clara Hardarsson - 2025-07-01 - [Skolon App Store](#)

If you find a tool in the Skolon App Store that you'd like to suggest to your local authority, you can easily do so by clicking on the suggestion symbol.

Click on the tool and press the symbol that looks like a heart. You'll get a confirmation that the suggestion has been saved, and you can see on the heart whether you've suggested the tool.

Via the 'Suggestions' button above the search field, you can see a summary of the suggestions you've made, as well as your local authority's suggestions.

The screenshot shows the Skolon App Store interface. At the top, there are navigation tabs: 'Min samling' (selected), 'Biblioteket', and 'Lärarrummet'. On the right, there are user icons for 'DemoAdmin' and a search bar. The main area displays a grid of app icons, each with a small 'Demo' label. A summary box on the right indicates 'Innehåll (26)' and '03 verktyg'. A message 'Du verkar inte ha några uppgifter för tillfället' is shown. The bottom right corner has a 'Behöver du hjälp?' button.
