

Suggest tools for Skolon Store

Clara Hardarsson - 2026-02-12 - [Skolon Store](#)

If you find a tool in Skolon Store that you'd like to suggest to your local authority, you can easily do so by clicking on the suggestion symbol.

Click on the tool and press the symbol that looks like a heart. You'll get a confirmation that the suggestion has been saved, and you can see on the heart whether you've suggested the tool.

Via the 'Suggestions' button above the search field, you can see a summary of the suggestions you've made, as well as your local authority's suggestions.

The screenshot shows the 'Min samling' (My collection) page in the Skolon Store. At the top, there are navigation tabs for 'Min samling', 'Biblioteket', and 'Lärarummet'. Below the tabs is a search bar with the text 'Sök efter verktyg...' and a 'SUGGERA' button. The main area displays a grid of tool cards, each with an icon and a title. The tools shown include: '10 Monkeys', 'ABC-klubben', 'Skolup AI', 'Anatomi och fysik', 'ClaroRead Plus P...', 'Google Classroom', 'Mapp', 'STORYLAB - Skap...', 'Podlet', 'Sveriges historia', '3DL', 'Google Classroom', 'Soundtrap for Education', 'CREAZA', 'EXTRAMATERIAL', and 'YouTube'. A message in the center of the grid reads 'Du verkar inte ha några uppgifter för tillfället'. On the right side, there is a vertical button labeled 'Redigera din hjälp'.
