

## Activate widget for Microsoft Teams

Clara Hardarsson - 2025-07-14 - Widgets

Skolon's Microsoft Teams widget integrates with Microsoft's APIs to retrieve information about classes, groups, and assignments in the collection. For the widget to function in your organization's Microsoft Teams tenant, a school administrator must approve that Skolon's Microsoft Teams widget is allowed to call the APIs, also known as "approving scopes."

- The following steps need to be completed before your teachers and students can start using the widget. The person completing these steps needs to be **both a Skolon administrator and an administrator in your organization's Microsoft Teams tenant**.
- **Add the "Microsoft Teams assignments" widget** and assign it to the user who is an administrator in your organization's Microsoft Teams tenant. Read how to do this .
- **Go to My Collection**, and click on **"Trouble logging in"** on the widget.
- The following dialog box will then appear. Click on **"Do you have an administrator account? Log in with that account."**

A new tab will then open. Here, as an administrator, you need to approve that Skolon's Microsoft Teams widget gets access to retrieve data from a number of APIs. The box looks like this:

admin@m365edu844889.onmicrosoft.com

## Permissions requested

Review for your organisation

**SkolonTeamsWidget**

unverified

**This app may be risky. Only continue if you trust this app.** [Learn more](#)

This app would like to:

- ✓ Maintain access to data you have given it access to
- ✓ Read and write users' class assignments and their grades
- ✓ Read users' class assignments and their grades
- ✓ Read and write users' class assignments without grades
- ✓ Read users' class assignments without grades
- ✓ Read a limited subset of users' view of the roster
- ✓ Sign in and read user profile

If you accept, this app will get access to the specified resources for all users in your organisation. No one else will be prompted to review these permissions.

Accepting these permissions means that you allow this app to use your data as specified in their Terms of Service and Privacy Statement. The publisher has not provided links to their Terms for you to review. You can change these permissions at <https://myapps.microsoft.com>. [Show details](#)
