Deny access for specific tools at an approved supplier

Clara Hardarsson - 2026-06-17 - [Manage data and security](#)

If you use Skolon's **approved suppliers** feature, as an organisation administrator, you can specify if any particular tool should be **blocked from access**.

This means you can choose to approve a supplier even if not all of their tools can be approved, as you can control access at the tool level. Here's how to do it:

- Click **Data Visualisation** in "My apps."
- Click **Data Protection**.
- Search for or scroll to the supplier you intend to edit.
- Click on the relevant supplier.
- **Check the box** next to the tool you want to deny access to. Click **Reject**.

The screenshot displays the 'Data Visualisation' interface for 'Skolon UK'. The main content area shows a hierarchical tree structure of approved suppliers and their associated tools. At the top, a summary card for 'UPPER SECONDARY SCHOOLS' shows 28 approved and 30 pending suppliers. Below this, a grid of tool icons is shown, each with a wrench icon indicating it is approved. The tools are organized into three rows:

- Row 1: One Play, Zoody AB, Skakup, ClickView, Canvas Pty Ltd, WVideo, SIA Heige, Kuba Robotics, Expert software applications..., Dugger - Digital Assessment
- Row 2: Hammer/Wire AB, Radish AB/ Matteggen..., Creaqa, Soundtrng for Education, Wavelength, Inc. DMA Padlet, 2 Simple Ltd, Levalbee, Revidgenster AB, Everany Technology AB, Iseerish
- Row 3: Meand Digital Solutions AB, Ugly Duckling Games, ET Education, Everany Technology AB, Licakers Program Lash..., Tools for Schools Limited, 3D Learning AS, Digisiam, Local tests

The interface includes a search bar at the top, a 'Tools' button, and a 'Users' button. A sidebar on the left contains navigation options: 'Shared data', 'Usage', 'Demo use', 'Purchase statistics', and 'Data protection'. A 'Back to My Collection' button is at the bottom left, and a 'Demo member' button is at the bottom right.
