Install Skolon SDS Entra Lifecycle Management

Gabriel Wallén - 2025-04-10 - [Microsoft / Entra](#)

This is an installation article for Skolons SDS Entra LCM integration. For a detailed description of the integration, please see the following article [Skolon SDS Entra Lifecycle Management](#)

To install Skolons SDS Entra LCM Integration, you will need the following:

- Microsoft 365 Education tenant
- Global Administrator Permissions
- Global Administrator accessing SDS needs SDS Plan 1 (A1) or SDS Plan 2 (A3 / A5) License
- Email addresses in Skolon, either synced from your MIS or generated in Skolon.
 - If you want to generate email addresses in Skolon, see the article [Email generation in Skolon](#)

Microsoft provides detailed installation instructions for SDS in this article [“Connect data to School Data Sync”](#).

You will find the connection credentials for Skolons OneRoster API in the Skolon Data Hub under “OneRoster”

The screenshot shows the Skolon web interface. On the left is a sidebar with the Skolon logo and a menu titled 'Syncs and data flows' containing: Overview, Syncs, Sync types, OneRoster (highlighted), API Sync, Freja eID, Entra, and National exams. The main content area is titled 'OneRoster / Demo Skolon huvudman Teams' and has tabs for Overview, Schools(2), Connection details (active), and Logs. Under the 'Connection details' tab, it says 'The following information is used to connect to your OneRoster API.' Below this is a form with four fields: 'Client Id' (empty), 'Client Secret' (empty), 'URL for fetching access token' (pre-filled with 'https://idp.skolon.com/oauth/access_token'), and 'URL for OneRoster API' (pre-filled with 'https://integrations.skolon.com/ims/oneroster/v1p1'). There are 'Rename' and 'Remove' buttons in the top right of the main content area.

If you are missing an entry for your OneRoster-configuration, please [contact our support](#) and we'll help you out.

Please note that you will have to activate at least one school and create at least one team in order to proceed with the last steps of the SDS installation guide.

Detailed configuration instructions for Skolon SDS Teams

When configuring SDS in Entra there are some detailed configurations that can be done. For the integration to work as intended, use the following settings in Entra:
