Suggest tools for the Skolon App Store

Clara Hardarsson - 2025-07-01 - [Skolon App Store](#)

If you find a tool in the Skolon App Store that you'd like to suggest to your local authority, you can easily do so by clicking on the suggestion symbol.

Click on the tool and press the symbol that looks like a heart. You'll get a confirmation that the suggestion has been saved, and you can see on the heart whether you've suggested the tool.

Via the 'Suggestions' button above the search field, you can see a summary of the suggestions you've made, as well as your local authority's suggestions.

The screenshot shows the Skolon App Store interface. At the top, there are navigation tabs: 'Min samling' (selected), 'Biblioteket', and 'Lärarrummet'. On the right, there are user icons for 'DemoAdmin' and a notification bell. The main area is titled 'Min samling' and contains a search bar 'Sök efter verktyg...'. Below the search bar is a grid of tool icons. A tooltip 'Du verkar inte ha några uppgifter för tillfället' (You seem not to have any data for this occasion) is displayed. The tools listed include: Demo, 10 MON KEYS, ABC-klubben ök..., Skolup AI, greenups, CloroRead Plus P..., Google Classroom, Mapp, STORYLAB - Skap..., Padlet, Sveriges historia, 3DL, Google Classroom, and Google. The 'Google Classroom' icon has a red heart icon overlaid on it, indicating a suggestion has been made. A small 'Behöver du hjälp?' (Need help?) button is visible on the right side.
